### GRADING

The grade given is based on the amount of arthritis in each joint. Arthritis indicates elbow dysplasia is present. Grades range from 0 (free of arthritis) to 3 (severe arthritis). Please refer to the explanatory sheet entitled 'Interpretation of Grades' for a full explanation. This is available from your veterinarian or the New Zealand Veterinary Association. Statistics for each breed evaluated are printed from time to time in the New Zealand Kennel Gazette.

### ASSESSMENT (for scrutineers use only)
