hip and elbow scores are mentioned in the Danish KC letter Marilyn, but have attached for you again on pedigree, HD A, ED 0/1
DNA number for dog on vWD and DM test results, DOG43302. Always hard with imported dogs,
Nathalie

Hi,
I have registered your Litter Notification.
When loading the test results for the sire I note that the DNA Profile as well as the Hip & Elbow test results are missing.

I did scan the letter from the Dansk Kennel Club onto the DNA profile so maybe with the Profile on the VWD test should be ok.

Thanks

Morning Marilyn,
I notified the litter last week (my own), hope you have all the info you require?
Kind regards,
Nathalie
